

LIGHT FLYPACK

Gravity Media Light Flypack is a compact flypack optimised to allow rapid installation in the smallest spaces. Built with three workstations – each with audio and video monitoring and intercom – it can accommodate up to four HD cameras (PTZ or studio), and with its Ross mixer, switching sources or creating multi-screen effects is easy.

SPECIFICATION

- Ross Carbonite Solo13 vision mixer, or Simplylive ViBox 16 channels
- Blackmagic video router 40x40 3G, HD
- 8–10 cameras (studio, PTZ, mini camera)
