

REMOTE OPERATIONS FLYPACK

Our Remote Operations Flypacks is especially well suited to productions bringing together venues, studio and roving presenter feeds, supported by a compact crew – especially useful during COVID-19 social distancing. Quick to deploy and capable of easy integration with host broadcasters and Gravity Media’s own Production Centres, this represents a very cost-effective and scalable solution.

SPECIFICATION

- Lightweight Fly Pack for Remote Operations
- Extensive Experience of long line and fully remote solutions
- Low latency encoding and distribution
- Integration with host broadcast operations and feed distribution
- Variety of communication solutions
- Remote Studio and RF Camera integration
- Remote ingest, editing and file-based workflows
