DSNG CAPABILITY

As a complement to Gravity Media's 12 outside broadcast trucks in Australia, we have a dedicated DSNG fleet that comprises 10 satellite uplink vehicles and three satellite flyaway uplinks – the largest fleet of its kind in Australasia.

Just as comfortable operating in remote locations as in major cities, these versatile and robust units have enhanced uplink capabilities and ensured resilience/duplication of critical equipment and power, meaning they can go anywhere and will never fail to deliver. Clients include TV networks, sports federations, government departments, corporates, agencies and commercial brands.

Gravity Media's reputation in the digital satellite market has been built over three decades, with our fleet and personnel routinely used in major global transmissions, such as top-tier sport (Grand Slam tennis, Asia Cup Football, Olympic swimming trials), reality TV and business TV (product launches, awards hook-ups).

ABOUT GRAVITY MEDIA

Gravity Media is a leading global provider of complex live broadcast facilities and production services to content owners, creators and distributors. We use the collective pull of our people and resources to create world-class content that inspires and excites.

Gravity Media is a brand-new company with a 30-year pedigree, formed by the coming together of four established broadcast and production houses: Gearhouse Broadcast, HyperActive Broadcast, Input Media and Chief Entertainment. Our 500 people serve clients across the sport, media, news and entertainment industries from bases in the UK, Australia, USA, France, Germany and Qatar.

We are the only end to end provider of bespoke technical solutions and tailored production and creative services across global sport, entertainment and drama.
